

Aquajet News

Aquajet Systems AB is a world leading company in design and manufacturing of versatile Hydrodemolition machines to selectively remove deteriorated concrete from sensitive areas and engineered structures

Exhibition report

BAUMA Munich 2010

For us this year of Bauma was an extraordinary exciting event by exposing the brand new Hydrodemolition Robot AQUA CUTTER 710

Inspite of the heavy disturbance due to volcanic ash and smoke from Iceland that stopped many of visitors to Bauma, the summary ended up in a great success when presenting our new range of AQUA CUTTER.

We had visitors from 47 countries that gave new business and a great number of leads to business-opportunities

Product news

AQUA CUTTER 710

Below we show some of the great advantages with the latest version of our AQUA CUTTER

Fold-up gull-wing doors

Engine, valves etc are easily reached

Hybrid drive-unit

Hybrid drive-unit connected to the AQUA CUTTER

HYDRODEMOLITION

Exhibitions:

September 9-10,
2010
Booth C 19
Scandic Infracity
Stockholm-Upplands
Väsby, Sweden

Product news

Cleaning has never been more easy than now!

Evolution has user-friendly programmable geometrical patches just with a few clicks

New add. techs

- Extended track-length 1760mm (prev.1550mm)
- Extended track maximum width, adjustable 1000-1600mm (prev.1000-1500mm)
- Lower centre of gravity
- High torque track motors
- Hybrid drive additive
- Increased engine power with adjustable rpm and fuel saving function
- Extended working height to 7 meters
- New heavy duty track-sides with double sealed bearings in the wheels and rollers
- Hydraulic track tension adjustment
- Robalon® slide-channels for track-extension with higher precision
- Easy cleaning and maintenance
- Well sealed overall-design for keeping dirt out, also between engine-compartment and control-panel
- Easier change of oil and filter at the diesel-engine
- Easier change of air filter
- Stronger hood (ABS/acrylate/polurethane/steel)
- More easy-to-use remote-control holder
- Larger fuel-tank
- No protruding locks at the hood
- Towing eyes both front and back

Staff

We have recently reinforced our Sales-department with a new sales-representative, Mr. Patrik Andersson, we will come back with more info in next Aquajet News.
